

# Macbook Charger

If you are among the many photographers who have an Apple Macbook or Macbook Pro, there is a new way to keep the effectiveness and staying power of your Macbook's battery. With the NewerTech Intelligent Battery Charging Station, you can charge your batteries to their full potential, while also conditioning them so you don't have to drain your batteries to keep it from losing their shelf life. The station has two docks, where you can charge one battery while conditioning another one, allowing you to kill two birds with one stone. (\$149.95)
