The 6.5 x 6.5-in. drive provides quadruple interface compatibility with eSATA, FireWire 800 (two ports), FireWire 400, and USB 2.0 (three ports) connectivity; the eSATA interface offers a transfer rate of 150 MBps. The stackable drive is available in capacities of 160, 250, 320, 400, 500, 750 GB, in addition to the 1-TB model.

The storage solution also features thermal monitoring, automatic power on/off, and utility software (including backup solutions for PCs and Macs). Compatible with Mac OS 8.6 to 9.2.2; OS X 10.1 and higher (10.2 or later required for FW800 and USB 2.0); and Windows ME, XP, 2000, Vista.
