

NewerTech Unveils Battery Charger And Conditioner

Newer Technology, Inc. (NewerTech) has unveiled the NewerTech Intelligent Battery Charging Station, a battery charger/conditioner for Apple MacBook/MacBook Pro laptops.

Available immediately, the Intelligent Battery Charging Station delivers the longest possible runtimes and extends the lifetime of MacBook and MacBook Pro batteries for maximum "unplugged" usability. The NewerTech Intelligent Battery Charging Station was designed with a dual purpose: to charge and condition batteries. The charger has two bays for conveniently charging two batteries one after the other, or charging one battery while conditioning a second one.
