Docking station

Voyager Quad Interface SATA I/II Hard Drive Docking Station turns any 2.5" or 3.5" SATA I/II hard drive up to 2.0 TB into a fully bootable and hot-swappable external drive solution. Enabling read/write data speeds of up to 3.0 Gbps, the device supports FireWire 800/400, USB 2.0 and eSATA interfaces. The device measures 5.28" x 3.70" x 2.68" and includes a two-color status LED and pushbutton drive eject. The unit is compatible with Mac and PC.—Newer Technology
