

COOL GADGETS

Lowepro Terracline

Prices ranging from \$19.99 to \$79.99 at www.lowepro.com

The Terracline is Lowepro's eco-friendly and casual bag that doesn't look like a typical camera bag. It's made with internal and external fabrics from recycled materials; the pouches' hardware is made

from plastic salvaged from manufacturer floors.

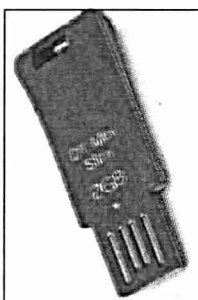

The bags are available in various sizes depending on the consumer's needs and cameras. Smaller pouches are perfect for point-and-shoot cameras, iPods or smart phones, while the largest shoulder bag is big enough to carry a digital SLR and its accessories.

DataTraveler Mini Slim USB flash drive

2GB for \$11; for 4GB for \$19 at www.kingston.com

Kingston Technology has a new and colorful way to store and transport digital files with this USB flash drive.

The device weighs less than an ounce (0.064 to be exact) and measures 1.529 inches-by 0.645-inch-by 0.253 inch. It's available in black, blue or pink with gray bottom casing, and can attach to a key chain.

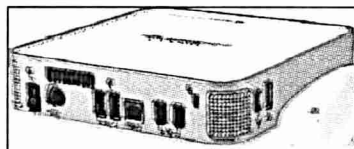

No software is needed to use the drive on a Mac or a PC; just plug it into a USB port.

The drive comes with a two-year warranty.

NewerTech miniStack v2.5 storage drive

80GB for \$104.99, 1.0TB for \$279.99 at www.macsales.com.

Other sizes are 160, 250, 320, 500 and 750GB.

NewerTech has added the miniStack v2.5 Firewire 400/USB 2.0 powered storage drive

to its lineup of the award-winning NewerTech miniStack line.

The external hard drive stacks up exactly with a Mac mini but can be used with any computer as a storage solution.

With these high capacities, NewerTech estimates users can store upward of 1 million photos, 350,000 MP3 songs or 500 DVD quality movies.
